The Soap Box (8/15/02)

From the why do men cheat department . . . because they can:

I heard Billy Bob Thornton was cheating on Angelina Jolie so she made him go to a sex therapist to help cure of him of being a sex addict.

So Billy Bob has SEX with the therapist.

He's my new hero.

I mean, let's be honest now, if guys will cheat on girls like Angelina Jolie, Pam Anderson and Elizabeth Hurley . . . the odds would seem stacked against the average girlfriend or housewife.

Don't worry though, I'm sure YOU'RE husband is faithful.

I'm behind this redneck the other day. I mean a full-on, gun rack, doolie truck driving redneck, and he's got the biggest fucking deer or elk or fucking moose head in the back of his truck. I mean it's huge and I'm driving behind him thinking . . . what a fucking moron, so I grabbed my camera and took a picture.

Hunting, man don't get me started. I work with two people who hunt and we get into these discussions all the time. Of course they throw out the 'do you eat meat?' then you're a hypocrite bullshit'. And I always counter with, yeah, I eat a hamburger but I don't sit in the fucking forest and shoot a cow with a shotgun and mount his fucking head on the wall in my living room.

I was watching one of those hunting shows the other day and it kills me. These rednecks sitting in a tree above a field where deer graze with a shotgun and binoculars. I mean sitting there for days until a deer, minding his own business, comes to eat or drink and POW!

Is this a sport? A these country fucks, get all over-sensitized and full of adrenaline and stand over their kill panting like a 14 year old boy at a Victoria's Secret catalog. They say shit like, boy that's a good kill, and wow what a beautiful animal.

That's right. They kill it because it's beautiful. Fuck them.

Put a fuckin' Buck knife in your hand and hunt a bear or lion and then I'll consider it a sport.

Obviously this guy got off a better shot than I did.

I'm glad The Osbournes went on hiatus because I was starting to develop an unnatural crush on Kelly Osbourne.

Seth Green sure has made a nice career for himself, which isn't something easily done when you start acting as young as he did.

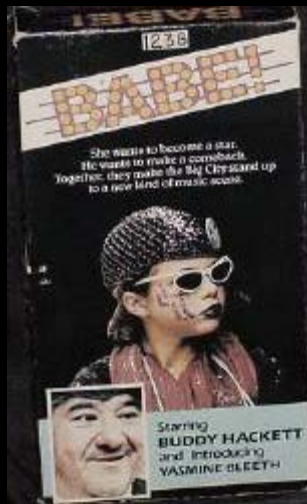

Speaking of that, I'm not sure if the Olsen Twins freak me out or turn me on.

Does anyone really like Creed? I mean, what the fuck? Or am I just not getting it?

This one, from the funny shit I found on ebay department:

A movie for sale starring Buddy Hackett and Yasmine Bleeth.

I have a picture for proof:

My only regret is that I didn't buy it.

Well I'm off to hunt cow . . .

Until next time.
